

BSS-Mk13 The fully automatic Button shank wrapping machine

The fully automatic BSS-MK13 is designed to wrap and to secure all types of sewn buttons at high and constant precision.
The 360° bonding guarantees the highest possible button security.

Performance data

Garment types:	Jackets, Trousers, Shirts, Outerwear & Leather
Number of buttons wrapped per 250m. cone	5000-7000
Buttons per hour including handling time	1800
Simple and fast change of colours	yes
Handling steps	1
Heatseal coverage	all around - 360°
Sequence program SP	up to 99 preset programs
Automatic waste extraction	yes
Preset adjustable programs	3
System diagnostics check	yes
Controls	touch screen menu
Software-Update vereinfacht	yes

Technical Data

Voltage	110/250V Single phase
Wattage	31 Watt
Air supply	5.5 Bar (80 psi) max. 1 m3 / Std.
Gross weight	22 Kgs
Box dimensions	54x50x42 cm

Our machines are engineered in Switzerland and manufactured in Italy in conformity with the basic requirements of the following European Directives as amended from the EEC General Directive 93/68/EEC, DIRECTIVE 2006/42/EC (Machinery Directive), DIRECTIVE 2004/108/EC (Electro Magnetic Compatibility), DIRECTIVE 2006/95/EC (Low Voltage) only for equipment/assembly installed in safe area.

Large coloured touch screen. User friendly software in 21 languages!

Air pressure digital meter to prevent the malfunctioning of the machine during operation

Automatic threading. Unique high speed threading of machine for simple and fast change of colours

YRS® - Our proprietary system to protect the customer quality standard through RFID technology

The machine has 3 preset programs, enabling fast and easy changing of button wrap options complemented with button wrap sequence programming (SP). The new Ascolite YRS Yarn Recognition System assures the best results in button shank wrapping.
