# ULTIMATE EMBROIDERY MACHINE "HCS2 1201-30"

COMPACT!  
FAST!  
EASY OPERATE!  
LIGHT WEIGHT!

HCS series that has good reputation, is renewed as HCS2 series equipped with color LCD touch screen control panel. The touch screen control panel makes operation easier, enabling you to quickly master the operation even for beginners.

## Color LCD Touch Screen Control Panel

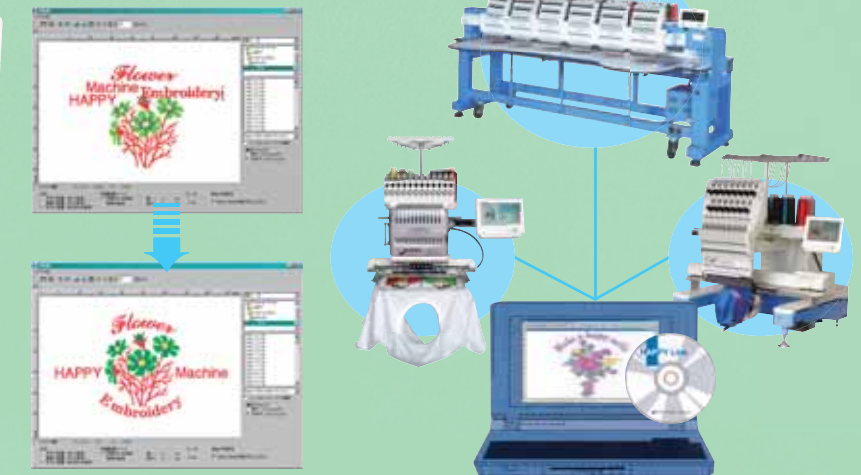

Newly designed color LCD touch screen control panel makes operation easier and faster. A stylus is equipped as standard, and USB mouse for PC can be used.

## Happy Link & LAN Connection

USB connection with machine and PC with Link software enables you to transfer and control designs and change color and set sewing. LAN system enables network to control multiple machines with one PC. Monogramming and design editing functions expand the flexibilities and the possibilities.

Example of editing function

### SAFETY COVER

If the cover is opened during operating, a sensor detects it is opening and the machine automatically stops to avoid danger.

### NARROW CYLINDER ARM

Happy's narrow cylinder arm allows embroidery in tight areas, such as cuffs or pockets. The small diameter of the arm fits in areas normal machine's can not sew.

### ROTARY THREAD BRAKE DETECTING SENSOR

The rotary thread break sensor monitors each thread and automatically stops machine when the thread has broken or the bobbin is empty.

### THREAD ADJUSTING SPRING

Happy's thread adjusting spring provides smooth upper thread supply and high quality embroidery even at high speed.

### BUILT IN BOBBIN WINDER

The machine is equipped with a bobbin winding device. (Independent bobbin winding motor system)

### FRONT LIGHT

A bright LED light illuminates the work area bright.
